Dear Valued Customers and Friends,

Welcome to our last Performance with Superior Taste bull and female sale. Diane wants to go someplace warm next winter and I want to do more fishing this summer instead of AI cows. We aren’t going to have a dispersion like some breeders do. We plan to sell 30 bulls private treaty next year plus some bred females so keep us in mind.

We started out with 2 open heifers and 2 bulls from Roger and Kay Bowers from St. Ignatius, Montana in 1986. We bought a load of bred heifers in 1987, 1988, 1989 from Landmark Cattle at Whitehall, Montana. Then we bought 35 heifer calves and 35 bred cows from the Landmark dispersion in the fall of 1990. Most of those females were Bando 155 and JR Juice Z005 daughters. We had our first public auction in 1993 at Beaverhead Livestock Auction in Dillon, Montana.

We called it the Performance with Superior Taste sale because we wanted the cattle to be calving ease with adequate growth and excellent marbling for great taste and over the years our breeding program has stayed the course. We started with no EPDs then expanded EPDs with dollar values and now we have enhanced EPDs with genomics.

We moved our sale back to Ida Grove in 2010 and started selling our bulls on Superior Livestock, in fact we sell half our bulls to repeat customers in MT. We don’t run our bulls through a sale ring but sell them on a big screen TV. We guarantee our bulls and females; ask any of our past customers. We have met a lot of good people in this Angus business; “friends forever”.

I want to thank our son Jimmy for all the work he’s done the last couple of years, I’ve had 2 new knees, a shoulder rotary cuff surgery and cataract eye surgery and gained 60 pounds. You can see how worthless I’ve been. Thank you Martin and Jana for all the help you have done and all my friends and families for their help putting on these sales. If you have a couple of days off call and we will go fishing!!!

P.S. Don’t miss our CAB ribeye sandwiches on sale day and maybe we can get Jana to fry up some chicken legs.

-Mason and Diane Fleenor -

Performance with Superior Taste

Annual Sale

GG Genetics & MARS Angus
Selling 65 - Yearling Angus Bulls  & 45 females - cows and heifers

Thursday  ♦  MARCH 3, 2016  ♦  1:00 pm , CST
Ida Grove, Iowa  ♦  At the Feedlot

Sale Information

BULL BOARD: We will keep your bull(s) until you need them this Spring at no cost. However, if we have a load going your direction we reserve the right to deliver them a little earlier than you may need them otherwise.

VOLUME DISCOUNT: Purchase 5 to 9 bulls, receive a 5% discount. Purchase 10+ bulls, receive a 10% discount.

RETAINED INTEREST: GG Genetics retains a 1/3 revenue sharing, semen interest in all bulls selling. The buyer has full possession and full salvage value.

HEALTH: All sale bulls have been maintained on a complete health program since birth. Current on all vaccinations. They have been wormed and deloused at weaning and again in early winter of 2016.

SEMEN CHECK: All bulls have been semen checked by Hawkeye Breeders at Adel, Iowa. Hawkeye Breeders will offer 1 free semen collection on any bull selling for $4,000 or more. Call Mason for details.

BULL DELIVERY: Free delivery on Bull lots over $4,000 or total bull purchases over $10,000 within the continental United States. All other deliveries at cost not to exceed $200 per bull. We do reserve the right to deliver your bull or bulls earlier if we have a load going your direction.

COW DELIVERY: We prefer you pick up any cow lots you purchase as soon as possible after the sale. If you cannot pickup your purchases, please contact Mason for delivery options.

WARRANTY: We try, through our genetic selection process, to eliminate as many breeding problems as possible. We realize that problems may arise which might prevent a bull from fulfilling the purpose of his purchase - to breed cows. If, during the first breeding season, one of our bulls cannot fulfill that purpose, we will replace him with a bull that can. Please feel free to contact Mason at anytime, however we would like to know as soon as possible about any problems that may arise.

LUNCH: Complimentary Pre-sale lunch at noon. Certified Angus Beef Ribeye sandwiches.

OTHER: Announcements from the block take precedent over information contained in this catalog.

AUCTIONEER: Dustin Carter : 712-898-9972

Mason & Diane Fleenor  mdfleenor602@hotmail.com  www.gggenetics.com

Sale Location - The sale will be held at the feedlot, South of Ida Grove, Iowa. It is 4 miles south of Ida Grove, Iowa on Jasper Avenue. One and a 1/2 miles west on 290th Street.

Address for the feedlot: 5629 290th Street.

How to Buy From Home

We are selling our bulls on Superior Livestock Auction this year. You can buy your bull from the comfort of your own home on Dish Network Channel 232, Rural TV. You need to pre-register for a buyer’s number before the sale at 1-800-431-4452.

The bulls and cows will be available for viewing in pens the morning of the sale but will not run through the sale ring. There will also be a video available of all bulls and cows selling. Check out the Superior website or contact Mason 515-360-1901 or Martin 614-327-1821 for your own DVD.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions’ “Call or Click-To-Bid” service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE’S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to www.superiorlivestock.com and click on the tab titled “Register for a Buyer Number”. Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer’s number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior’s online bidding program for cattle buying. Please note that high speed internet is required — this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy — just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast via satellite on Dish Network channel 232 (RURAL TV). Please note that there is a short delay if you are watching the auction on television so be sure to call in a couple lots ahead of the lot you are interested in bidding on. The sale will also be broadcast live on the internet at www.superiorclicktobid.com — just go to the home page and select the auction. Remember you can call in to bid whether you watch on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to “click-to-bid”. Your computer must have Flash Media Player installed to view the auction.

If you have any questions or need assistance, please call the Superior Productions office at 800-431-4452.

Bidders who are successful in making purchases via satellite or internet will be contacted by the ranch after the sale to settle payment and make shipping arrangements.

EPD’s current as of February 5, 2016. Updated EPDs can be viewed online with the registration numbers at www.angus.org

Videos will be available on the Superior website www.superiorlivestock.com or a direct link will be available on the GG Genetics website: www.gggenetics.com Videos will be available on or around February 17, 2016.

i50K - We have tested some of the bulls and females with the i50K marker. The results are listed on a separate page in the catalog and lots with i50K are labeled that way. Zoetis i50K for Angus includes genetic predictions in various forms for Percent Ranks. i50K increases predictability and decreases the risk for young and unproven animals due to enhanced accuracy of EPD’s. There is better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency). The ability to make more rapid progress for traits that are important to you, due to: more accurate selection; easier identification of genetic outliers and the ability to propagate young animals with confidence earlier in their lives.
VAR Reserve 1111

Born: 1/31/2011 Reg: 16916944

Selling 15 Sons, 2 Heifers.

VAR Reserve 1111 is a moderate made bull with added muscle and a +20 Docility EPD. He has high accuracy, double digit Calving Ease combined with excellent thickness. Reserve is a progeny proven efficient sire who ranks in the top 1% for reduced feed intake. His solid calving ease and maternally oriented data package combined with a no holes phenotype add up to great customer satisfaction and mating flexibility.

PA Safeguard 021

Born: 1/16/2010 Reg: 16772185

Selling Six Sons.

PA Safeguard 021 offers outstanding performance and high accuracy carcass merit, ranking among the top high accuracy sires in the breed for $B Index with 40 or more carcass records. His genomic and now progeny enhanced EPDs rank at the top of the breed in most key performance, carcass and convenience traits. His elite $B Index is balanced with strong maternal and fertility traits. Breed leader for Docility with +1.52 SC and +16.1 HP EPDs.

VAR Discovery 2240

Born: 3/06/2012 Reg: 17262835

Selling Seven Sons.

VAR Discovery 2240 is a rare genetic package with moderate birth, extreme growth and elite carcass traits. His Zoetis 50K profile ranked him in the top 10% for CED, BW, WW, YW, DOC, CEM, MILK and CW.

Angus Breed Average EPD’s as of 2-5-2016

Connealy Comrade

Comrade is an ultra-complete choice for both heifers and cows. He sires excellent structural integrity and has good feet and is sound moving. An extremely high Marbling, high Docility Consensus 7229 son, Comrade does so many things well and his offspring will do the same.

Selling SIX Sons from Connealy Comrade.

SydGen Googol

This maternal brother to SydGen CC87 is siring exceptional growth and carcass value. His daughters should be excellent milkers. This outcross sire continues to improve his $B Value, and ranks well into the top 1% of proven sires.

Selling 5 Sons, 2 Heifers.

SydGen Jaguar 1779

10 cows (in female sale) bred to this bull.

JAGUAR is phenotypically strong for foot and leg structure, with excellent length and phenotype.

Docility (Doc), is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire’s calves. We started selecting for better temperament when the docility epd was first developed. The difference is substantial. With 2 and sometimes 3 generations of selection for better temperament, the cattle are quieter to be around, work better through the chutes and generally perform better. There is substantial evidence that cattle with better temperaments perform better in all aspects of production. All of the sires of the bulls selling are in the top 20% of the breed for docility.

Driving the science of better breeding

There’s little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

- Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs
- Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)
- The ability to make more rapid progress for traits that are important to you, due to:
  - more accurate selection
  - easier identification of genetic outliers
  - the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-20 calves, depending on the trait. That’s valuable insight, offered regularly through the breed’s weekly national cattle evaluation.

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo or those of partnering labs Zoetis (HD50K, i50K) or GeneSeek (GGP-HD, GGP-LD). These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs.

www.angus.org
Thank you for your interest in GG Genetics & our program.
ALL OF THE YEARLING HEIFERS AND OVER HALF OF THE BULLS SELLING WERE TESTED WITH THE LOW DENSITY GENOMICS TEST OFFERED BY ZOETIS. THIS IMPROVES THE ACCURACY OF THE EPDS. NUMBERS LISTED ARE A PERCENTAGE RANK FOR THAT SPECIFIC TRAIT. FOR EXAMPLE LOT #1 HAS A 7 FOR BW. THIS CORRELATES TO A RANKING IN THE TOP 7% OF THE BREED FOR THAT GENOMIC TEST. A LOWER NUMBER INDICATES THAT SPECIFIC TRAIT IS MORE LIKELY TO BE EXPRESSED IN AN ANIMALS OFFSPRING.
